Show # 102—Chris Wise - February 3, 2009

Tips From Chris:

1. I started to uncover business lines of credit. I learned how to leverage my personal credit and my businesses' credit so I could get this money. Now I didn't take this money and put it back into the business. I took the money and put it into passive income investments.
2. I've accumulated some very specific knowledge regarding how to acquire funds, how to acquire money from banks. You really can do whatever you want with the money; however, my recommendation is that you're going to put it into something that's going to make you money.
3. There are really three avenues to getting this type of business credit.
 - a. The first avenue is your own personal credit.
 - b. Now, even if you don't have good personal credit, here's the good news. You can use somebody else's credit which I call other peoples' credit. It doesn't have to be somebody that you know.
 - c. The third avenue is business credit. Over time, by making small purchases and getting trade lines set up for business credit, we can go out and get larger cash credit just based on business. **That means we don't have to put a personal guarantee on it.** They aren't even going to look at our personal credit.

The investment of the class is only \$7,500.00. I had one person come up to me and say, "Chris, if you are so confident that your program works, why don't you get me the money first then I will gladly give you your fees.

I smiled and said here is what I found, no one puts real value on anything they get for free. But here is what I will do. I am so confident that I can get you the money I will carry 60 percent of my fee. What that means is, you put down 40 percent (\$3,000.00) and when I get you your money, you pay be the 60 percent balance. If I fail to get you the money, you owe me nothing. In fact, I even have an Iron Clad Guarantee on your down payment.

I am willing to bet 60 percent of my own money that I can get you your money. I am putting my money where my mouth is. Do not wait any longer, sign up today and let me start showing you the money!

*Your program was amazing! You make things very easy to understand and you are really approachable. I loved how you gave us usable information on how to understand and control our credit reports and with that, be able to increase our credit lines. Thank you for teaching us how to play the game instead of being resentful and victims of the system.
